REQUEST FOR AMENDMENT OF THE INDIAN CANYON UNIT

The Indian Canyon Unit was approved by the United States Geological Survey on June 13, 1979, with Burton/Hawks Inc. as unit operator. Energy Reserves Group has since taken over as unit operator. The Indian Canyon Unit Agreement provided for the drilling of three wells of varying depths to test the upper 20 feet of the Wasatch Formation, but not to exceed depths of 4,000 feet. The initial unit well was commenced June 20, 1979, and drilled to a total depth of 4,011 feet in the Wasatch Formation. The well was plugged and abandoned on August 5, 1979.

Energy Reserves Group now proposes to amend the unit agreement to provide for one deep well to be drilled as a substitute for the two remaining wells. It is proposed that a well be drilled to test the upper 5 feet of the Morrison Formation or to a depth 15,189 feet.

The following are the State of Utah leases in this unit.

ML 27325 Union Oil Company of California
ML 36641 John E. Hoffman

Upon recommendation of Mr. Bonner, the Director approved this unit amendment.
